

Building & Municipal Technologies Line Card

Solutions for...

- Building Automation
- Electrical
- HVAC
- Refrigeration

The best solutions don't come from a catalog or instruction manual, they come from experts who speak your language. That's exactly what you get when you work with Allied Automation. We've been committed to the cutting edge of technology since our founding in 1981. We're a trusted leader for the most advanced solutions available, and we partner with world class brands to offer the best products on the market. It's about more than just selling you a part.

Our Super Service Promise states that "we'll give you the support you need, no matter what it takes". Our salespeople are engineers who listen to your needs and come up with the best solution. After the sale is final, we'll stick around to make sure the solution works. We offer training courses on VFD's, motors, automation, controls and robotics to ensure you maximize your investment.

VFDs and Motors

Emerson Industrial Automation

VFDs

Marathon Electric

AC motors — general purpose to vector duty

Mitsubishi Electric

PLCs, HMIs, SCARA and 6 axis robots, servo systems, VFDs, low voltage switchgear

R+W Couplings

motor coupling, torque limiters

WEG

electric motors, VFDs, soft-starts and circuit protection

Enclosures

Allied Moulded Products

nonmetallic enclosures

EXM Enclosures

electrical enclosures and modular cabinets

Wiegmann

electrical enclosures: NEMA, nonmetallic, standard, modified and specials

Electrical

Altech

enclosures, European fuses, interface modules, liquid tight strain reliefs, disconnect switches, terminal blocks, push buttons and tower lights

Icotek

cable management, shielding and strain relief

Lutze

cabling for controls and drives

Mencom

panel interface connectors for power, programming and communications, molded cables and receptacles

Metz Connect

fiber optic and copper communication cable and connectors

Micron Industries

power supplies, transformers, sag buffers and mini UPS

MTE

line and load reactors, DC chokes, sine wave filters, harmonic filters and RF EMI/RFI filters

Wago

Modbus, BacNet and LON IO modules and terminal blocks

Industrial Networking

Anybus

gateways for Modbus, BacNet, LON, Ethernet/IP, Profibus and serial

Moxa

industrial ethernet switches, wireless and cellular routers, video servers and surveillance systems

Visualization

Iconics

visualization software

Weintek HMI

HMI panels and software

Our Indianapolis-based training center gives customers a convenient source for training on VFD, motors, software and more. We understand how important continuous education is to our clients. Customized sessions are commonly provided to fast track challenging installations. If a class you're interested in isn't listed in our curriculum, Allied Automation will build a class to fit your needs.
