

Allied Automation Training Center

When an Allied Automation expert walks in your door, everything is on the table. We're engineers first so our goal is the same as yours – finding the best solution for you, not just selling you a specific brand or part. In Allied, you have a partner who gathers all the information available, learns your specific needs, then puts together all the pieces to find the parts or the system that's just right for you.

Transforming Businesses with Customized Training Solutions

Introducing Mitsubishi Diamond Certified Training Center

Our state-of-the-art, Mitsubishi-Certified Training Center gives customers a convenient source for training on:

- **PLCs**
- **Robotics**
- **Motion Controls**
- **VFD**
- **HMI**
- **Software**
- **and more**

Call Allied Automation or visit our website to view a list of our monthly classes. If there is something that you don't see, simply contact us to request a class. Strategic customized sessions are commonly provided to fast track challenging installations. No matter what your need is, we can find a solution for you.

Allied Automation is an Indianapolis-based leader in technology-based manufacturing solutions. Since 1981, we've been committed to the cutting edge, partnering with world-class brands to offer the best products and systems around. We're ready to help you make a difference.
